

KOND Special Event Logging Guide

Quick export steps for common logging software, plus paper log instructions

1 N3FJP / AC Log

- ✓ Set Station Callsign to KOND.
- ✓ Set Operator Callsign to your own personal callsign.
- ✓ Make sure time is UTC.

Export path: File → Export ADIF
Save the file as: KOND_YourCall_Date.adi

2 N1MM Logger+

- ✓ Set Station Callsign to KOND.
- ✓ Set Operator Callsign to your own personal callsign.
- ✓ Make sure time is UTC.

Export path: File → Export → Export ADIF to file
Save the file as: KOND_YourCall_Date.adi

3 Ham Radio Deluxe Logbook

- ✓ Set Station Callsign to KOND.
- ✓ Set Operator Callsign to your own personal callsign.
- ✓ Make sure time is UTC.

Export path: Logbook → File → Export → ADIF
Save the file as: KOND_YourCall_Date.adi

4 Log4OM

- ✓ Set Station Callsign to KOND.
- ✓ Set Operator Callsign to your own personal callsign.
- ✓ Make sure time is UTC.

Export path: File → Export ADIF
Save the file as: KOND_YourCall_Date.adi

5 Paper Logs

- ✓ If you use paper logs, write clearly and legibly.
- ✓ Include for every contact: date (UTC), time (UTC), callsign worked, band, mode, signal report sent, signal report received, operator callsign, and station callsign used (KOND).
- ✓ Scan or photograph the pages clearly.
- ✓ Email them to logs@k0nd.org
- ✓ Put your own callsign on every page.
- ✓ Use the subject line: **Special Event Logs**
- ✓ Number multiple pages.

6 Need Help or More Information?

- ✉ Send logs to: logs@k0nd.org
- 📌 Subject: **Special Event Logs**
- ❓ Questions or information: info@k0nd.org

In the PDF, click logs@k0nd.org to start an email with the subject filled in.

7 Any Other Logging Program

- ✓ That is okay.
- ✓ The only requirement is that it can export an ADIF file.
- ✓ Look for menu options similar to: File → Export → ADIF, Log → Export → ADIF, or Logbook → Export → ADIF.

Just log the QSOs, export ADIF if possible, and send your logs to logs@k0nd.org.
